

## Challenge 1

```
SELECT count(col) AS jpg FROM exploded_webpages WHERE col LIKE '%.jpg' ...
```

Show cell

Cmd 29

```
SELECT count(col) AS js FROM exploded_webpages WHERE col LIKE '%.css' ...
```

Show cell

Cmd 30

```
SELECT count(col) AS css FROM exploded_webpages WHERE col LIKE '%.js' ...
```

Show cell

Cmd 31

```
1 CREATE OR REPLACE TEMP VIEW web_js AS SELECT * FROM exploded_webpages WHERE col LIKE '%.js'
```

OK

Command took 0.23 seconds -- by k.kiani@salford.ac.uk at 2/13/2023, 9:22:24 PM on k1

Cmd 32

```
1 SELECT * FROM web_js
```

Cmd 39

## Challenge 2

```
SELECT AVG(avg_risk_score_sfha) , AVG(avg_risk_score_no_sfha) FROM zip_level_ris ...
```

Show cell

Cmd 40

## Challenge 3

```
1 SELECT zipcode, count_property, ROUND(100*(count_floodfactor10)/count_property , 1) AS Risk_10_percentage
2 FROM zip_level_risk
3 ORDER BY Risk_10_percentage DESC
```
