Big Data Tools and Techniques

# New announcement from Kaveh Kiani

**Important - Workshop Groups and Lab Seating Guidelines**

**This Guideline is for both BDTT and ADB modules**

**Dear Students,**

We are excited to welcome you to the upcoming workshops! To ensure a smooth and productive experience for everyone, please review the following workshop group assignments and seating guidelines carefully.

**Workshop Groups:**

**September 2024 Students:**

- **Time:** 1:00 PM – 4:00 PM
- **Labs:** 2.17, 2.18, 2.19, and 2.06

**January 2025 Students:**

- **Time:** 4:00 PM – 7:00 PM
- **Labs:** 2.17, 2.18, 2.19, and 2.06

**Seating Guidelines:**

**Choose Your Seat Freely:** You are welcome to select any available seat within the assigned labs.

**Avoid Overloading Labs:**

- We have noticed that Lab 2.17 often becomes overcrowded while other labs have ample space.
- Please distribute yourself evenly across all available labs to ensure a comfortable and efficient working environment for everyone. Lab 2.06 is spacious and quiet, making it an excellent choice if you require more concentration during the workshop.

**Compliance:**

- If a lab becomes overloaded, module leaders may request that you relocate to another lab to balance the distribution.
- Your cooperation in following these guidelines is greatly appreciated and will contribute to a better experience for all participants.

**Additional Notes:**

- **Flexibility:** While you have the freedom to choose your seating, please be mindful of others and share the available space responsibly.
- **Support:** Should you have any questions or encounter any issues regarding lab assignments or seating, do not hesitate to reach out to the module leadership team for assistance.

We look forward to a successful and engaging series of workshops. Thank you for your attention and cooperation!

**Best regards,**

**Kaveh on behalf of the BDTT and ADB module teams**
